OBJECTIVE

The objective of the MiPlan IP SARASIN EQUISAR FEEDER FUND is to offer investors the opportunity for offshore diversification and exposure to global equity markets. The objective of the underlying fund is to achieve long term capital growth through an internationally diversified portfolio of equities and other instruments.

FUND APPLICATION

The fund is suitable for use by investors with a long term investment horizon who are comfortable with shorter term volatility as well as the risk associated with a fund mandated to achieve real long term growth.

FUND MANAGER

Vunani Fund Managers	:	Tony Bell
Feeder Fund	:	Alex Hunter & Guy Monson

FEES

Maximum initial fee	3.25%
Annual management fee (excluding VAT)	Class A1: 1.25% (LISP) Class B2: 0.35% (Pension fund) Class B4: 2.25% (Allinshare class) Class B5: 0.75% (Retail and Clean class)
Underlying fund management institutional fee:	0.65%

	TER(%)	NAV	Units in Issue
Class B5: (Retail & Clean Class)	PSFB5 1.69	3,056	845,249

* From 01 Oct 2016 to 30 Sep 2019 1.69% of the value of the MI-PLAN IP SARASIN EQUISAR FEEDER FUND Class was incurred as expenses relating to the administration of the financial product. 0.08% of the value of the financial product was incurred as costs relating to the buying and selling of the assets underlying the financial product. Therefore 1.77% (Total Investment Charge) of the value of the financial product was incurred as costs relating to the investment of the financial product.

A higher TER does not necessarily imply a poor return, nor does a low TER imply a good return. The current TER may not necessarily be an accurate indication of future TER's. Transaction Costs are a necessary cost in administering the Financial Product and impacts Financial Product returns. It should not be considered in isolation as returns may be impacted by many other factors over time including market returns, the type of financial product, the investment decisions of the investment manager and the TER.

METHODOLOGY

The Fund seeks to provide long-term growth through investment in the shares of companies from across the world. The Fund invests in shares which satisfy Sarasin's thematic process. It is not constrained by geography, sector or style but manages risk through a variety of theme characteristics. The Fund will not track an index. Derivatives (financial instruments whose value is linked to the expected future price movements of an underlying asset) may be used only with the aim of reducing risk or costs, or generating additional capital or income.

FUND PERFORMANCE*	FUND	BENCHMARK
1 Year	24.3%	24.6%
2 Years	14.4%	15.2%
3 Years	13.6%	13.9%
4 Years	6.6%	9.2%
5 Years	11.1%	13.6%
Since Inception	10.8%	13.2%

	Year	Performance
Highest return	2013	48.7%
Lowest return	2016	-11.9%

Returns are annualised *

(*Annualised returns is the weighted average compound growth rate over the performance period measured.)

Fund returns shown are based on NAV-NAV unit pricings calculated from INET for a lump-sum investment with income distribution reinvested (after fees and cost). Based on B5 class.

MI-PLAN (Pty) Ltd (Reg. No 2008/001568/07) is a licensed Financial Services Provider No. 9383

IP Management Company (RF) (Pty) Ltd (Reg. No 2007/017601/07)

An analysis of factors affecting the adherence to the policy objective is contained in the fund manager commentary together with performance as reported. A detailed listing of changes from the previous quarter is available on request from info@miplan.co.za or clientservices@ipmc.co.za

Collective Investment Schemes are generally medium to long term investments. The value of participatory interests or the investment may go down as well as up. Past performance is not necessarily a guide to future performance. Collective investment schemes are traded at ruling prices and can engage in borrowing and scrip lending. A schedule of fees and charges and maximum commissions is available on request from the manager. The Manager does not provide any guarantee either with respect to the capital or the return of a portfolio. Feeder funds invest in portfolios of other Collective Investment Schemes that levy their own charges, which could result in a higher fee structure for the feeder fund. The Manager retains full legal responsibility for the fund, regardless of Co-Naming arrangements. Transaction cutoff time is 14:30 daily. Each portfolio may be closed for new investments. Valuation time is 15:00 (17h00 at quarter end). Prices are published daily and available in newspapers countrywide, as well as on request from the Manager. IP Management Company (RF) Pty Ltd is the authorised Manager of the Scheme – contact 021 673 1340 or clientservices@ipmc.co.za. Standard Bank is the trustee / custodian – contact compliance-IP@standardbank.co.za. Additional information including application forms, the annual report of the Manager and detailed holdings of the portfolio as at the last quarter end are available, free of charge, from clientservices@ipmc.co.za. IP Management Company is a member of ASISA. The performance is calculated for the portfolio. The individual investor performance may differ as a result of initial fees, the actual investment date, the date of reinvestment and dividend withholding tax.

FUND MANAGER COMMENTS

While geopolitical uncertainty continued to dominate headlines in Q4, global equity markets posted record highs at the close of the year. President Trump's announcement of a 'phase one' deal between the US and China appeared to signal a truce in the long-standing trade conflict. The deal will see billions of dollars of tariff on Chinese goods either removed, reduced or delayed. Both Chinese and Hong Kong stocks climbed on the news, despite the continuation of violent protests in the latter territory. Elsewhere, the UK and the EU agreed a new Brexit deal and sterling rose on the back of a significant Tory majority in December's election.

Within the portfolio, Taiwan Semiconductor was a strong performer, due to robust demand for its 7 nanometre node and the fact that it is hedged to sell in the US and China. Currently, its 7nm process is used for some of the most advanced CPUs and all of the best graphics cards use either its 12nm or 7nm nodes. Amgen was also a strong performer. The US biopharmaceutical company released two strategic updates— first, its collaboration with Chinese pharma firm Beigene, allowing it to access the Chinese market, and secondly, the completed acquisition of psoriasis drug Otezla. Umicore and Marriott were other strong contributors this quarter.

On the negative side, Home Depot detracted from performance. The company lowered its full-year revenue growth forecast, which it attributes to delays in benefits from recent initiatives such as store improvements and an expansion into adjacent areas of the market. Bridgestone also disappointed. The Japanese auto parts manufacturer cut its sales guidance on the back of a weak original equipment market for passenger vehicles and softness in demand for large mining equipment tyres. Simon Property Group and Ecolab also detracted.

In terms of transactions, we bought Indian banking company HDFC Bank and the Dutch financial services corporation ING Groep. We sold ICICI Bank and Total.

The portfolio may include foreign investments and the following additional risks may apply: liquidity constraints when selling foreign investments and risk of non-settlement of trades; macroeconomic and political risks associated with the country in which the investment is made; risk of loss on foreign exchange transactions and investment valuation due to fluctuating exchange rates; risk of foreign tax being applicable; potential limitations on availability of market information which could affect the valuation and liquidity of an investment. All of these risks could affect the valuation of an investment in the fund.

Disclosure: MI-PLAN has a 37% ownership interest in IP Management Company (RF) (Pty) Ltd. IP Management is a registered Collective Investment Manager in terms of CISCA and performs administrative functions on co-branded MI-PLAN IP unit trusts for which it receives contracted fees. In terms of its licence, IP Management Company may not conduct any other business other than the business of running a Collective Investment scheme. Accordingly, all intermediary service and advice where applicable, is provided by MI-PLAN in terms of its licence for which remuneration is paid from the fees mandated in the supplemental deed and disclosed herein. MI-PLAN offers investors a unique liability matching offering that matches the clients portfolio to their unique needs as documented at www.miplan.co.za. The complexity and uniqueness of this process and variability of each client's needs, required that technology be used to embed MI-PLAN's intellectual property in the financial service offering. In delivering this financial service, software is provided by MI-PLAN to advisers that determines a liability matched asset allocation, constructed using MI-PLAN IP funds. While the MI-PLAN IP funds are specially designed to match this liability matched asset allocation, the advisor may select up to 75% of the portfolio in other funds. No fee is charged for the software and no obligation is placed on the advisor to offer, continue to offer, or offer to a minimum number of clients, this financial service. There are no other conditions placed on the advisors for the continued use of such technology that may influence the objective performance of the advisor. The advisor's obligations to render unbiased, fair advice in the best interests of you, the client, remains with your advisor. Your advisor's obligation is to compare this financial offering against all others and ensure it is the most appropriate for your needs.

The EAC is a standard industry measure which has been introduced to allow you to compare the charges you incur and their impact on the investment returns over specific periods. Please visit <http://www.ipmc.co.za/effectiveannual-cost> to address the EAC illustrator. You can request an EAC calculation from clientservices@ipmc.co.za or call us on 021 673-1340.
